Subject: Salary Restructuring

Dear Colleague,

As part of our continued commitment to regulatory compliance and transparency, we are writing to inform you about changes to your salary structure arising from the implementation of the New Wage Code, 2019.

In order to comply with the Government's consolidation of labor laws into four Labor Codes and the standardization of wage definitions, we have revised the salary structures for all India based regular employees. The revised structure will be effective from **1 April 2026**.

What is Changing

There is no change in your overall total compensation, however you may notice certain structural changes in your revised salary letter as below:

- The Annual Gross will reflect the combined total of your fixed salary and variable pay.
- Gratuity will not be shown in your updated salary breakdown, but benefits remain as per statutory guidelines.
- The updated salary structure excludes Food and Insurance components, but employees will continue to receive the benefits and there is no change to the same
- A new component, "Retaining Allowance," which forms part of your fixed salary, has been introduced.
- The "Miscellaneous Allowance" has been replaced with "Conveyance Allowance."
- NPS and Superannuation contributions will be deducted from the Conveyance Allowance.

Certain allowances and variable pay components have been realigned or merged into total annual gross, basis the grade or applicability of any other bonus component

You may refer to the mail sent with subject line "New Wage Code & Variable Update (India)", for detailed explanation and FAQ.

Your revised compensation is attached in Annexure A, effective 1st April 2026. All other terms and conditions of your employment remain unchanged and in line with Company Policy. In case of any conflict, your specific employment terms shall prevail. Please note that your grade and remuneration are strictly confidential between you and the Company.

Thank you for your continued contribution and cooperation.

Onwards & Upwards from here!

Yours sincerely,
